Branding Kit Contents and Usage

This kit includes logos, posters and bill inserts that can be used to promote eFileTexas.gov.

Logos

Two versions of the logo are included – each in two formats. They include a stacked and a horizontal layout in both eps and jpeg file formats. These logos can be used on your website or in printed materials you create that reference the eFileTexas.gov program.

Poster

The poster file can be used to print 11x17 color posters that promote the eFileTexas.gov program and urge filers to seek additional information on the eFileTexas.gov website

Bill Stuffers/Insert Card

These bill stuffers can be printed and inserted into letters or other mail communications you have going to attorneys and other filers. This file is designed to print three stuffers per 8.5 x 11 page, and so should be trimmed after it is printed. It can be printed in either color or black and white.

Website

The www.eFileTexas.gov website has a great deal of useful information about mandatory e-filing schedules, EFSPs, active courts, and frequently asked questions. Feel free to create links from your website to this one.
